

STARTS CLOSE, LOCKSBOTTOM BUNGALOW REFURBISHMENT - INTERNAL

Starts Close is a 2-bedroom, 2-bathroom bungalow situated in a quiet residential road in Locksbottom. Requiring a full internal renovation, Excellence Plumbing and Gas provided all plumbing, heating, and gas needs. This project was managed by Steve (Excellence owner). In partnership with the customers, he designed the layout, controlled the budget, coordinated all trades and materials on site. It was successfully delivered in December 2021, with outstanding reviews from the owners regarding the high level of workmanship and finish. They are delighted with their new, forever home. We have collated a sample of pictures to showcase the outcome.

MAIN BATHROOM

- A dated, poorly designed bathroom has been transformed into a large luxury walk in shower, to meet the customers' personal needs
- It is modern, stylish yet practical, with top of the range fittings
- A floating toilet for ease of cleaning underneath
- Elegant radiator fittings

KITCHEN AND HEATING

- With the removal of an internal wall, the kitchen has been remodelled to become a functional, open plan family area
- All appliances have been integrated for a sleek, organised look
- The result is a warm, beautiful, timeless kitchen
- A full heating system has been professionally installed, which is not only reliable and efficient, but a delight to the eye, complementing the bungalow's contemporary feel

'Thank you,
Steve and the
team for all
your hard work
and
perseverance'

'We would not
have been able
to achieve our
ambition
without
Excellence, we
are so pleased
with the result'
